Robotics advisors:

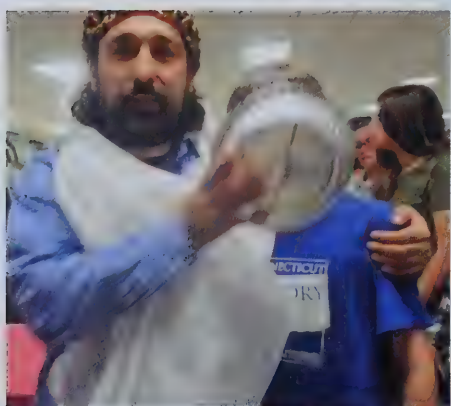

Mr. Mitchell

Mr. Behling

The 2015-2016 school year was very busy for JFK Robotics! To start the year, the 6th graders prepared their First Lego League robots for the FLL Regional Competition at Asnuntuck Community College. The 7th and 8th grade students also put in a ton of work, preparing their First Tech Challenge robot for the FTC Regional Competition in Greenwich, CT.

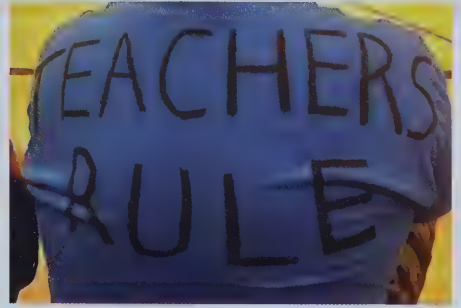

# Pi Day

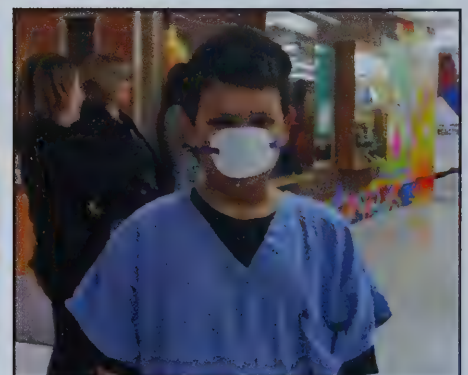

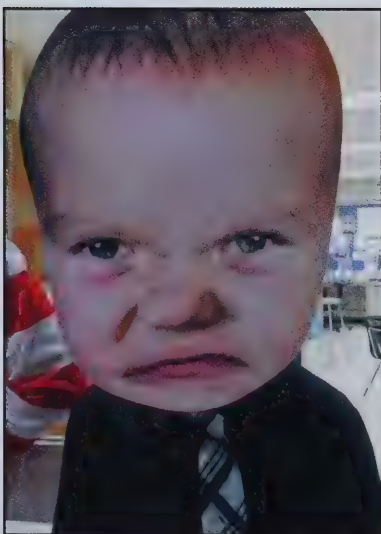

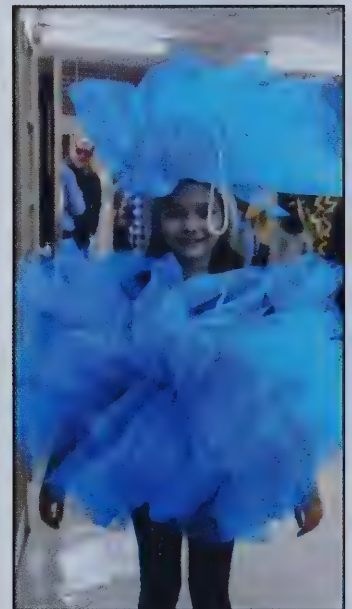

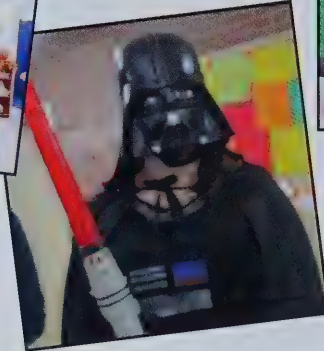

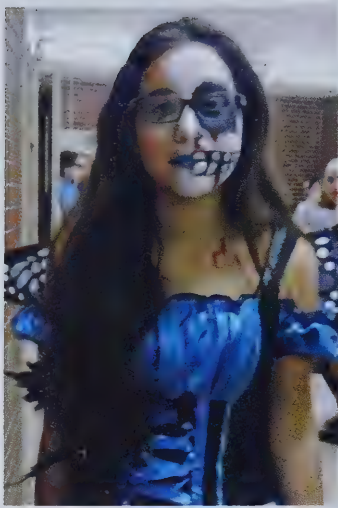

# Student vs. Faculty Basketball Game

# Halloween Parade

SeaPerch involves the planning and building of an underwater remotely operated vehicle. Students have to drive their tethered ROV's through an obstacle course for time. Students also have to complete different finesse challenges that involve moving objects with their ROV. Students can compete at the state and national levels depending on their times and scores.
